# Import ExamView Test to Moodle 3.0
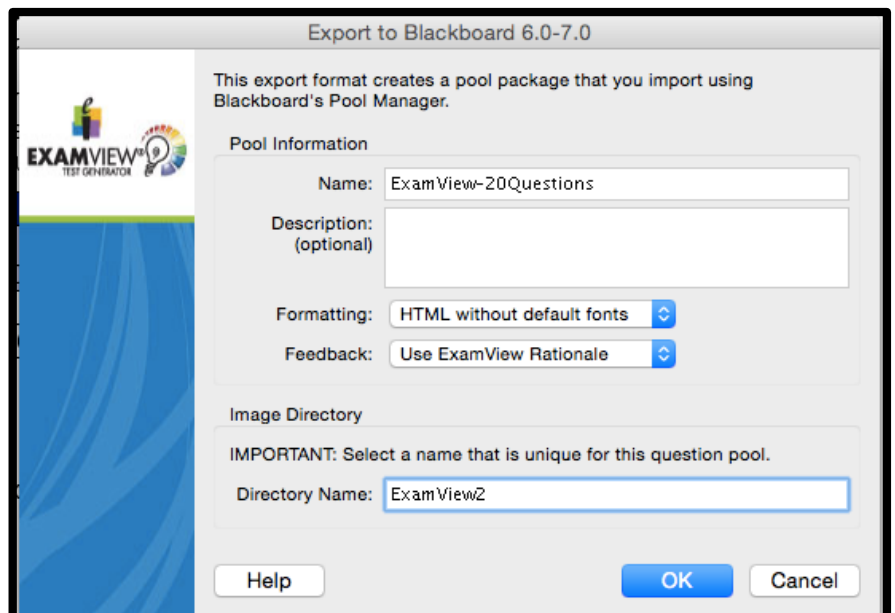

Create and Export an ExamView Test

1. Create your exam in ExamView
2. Go to File → Export
3. Choose Blackboard 6.0-7.0

4. Name the export
5. Export to Desktop

6. Name the fields and click OK

Created by DSmall

7. The file will be on your desktop. This next step is very important; you must unzip the file on your desktop so that you can see it's contents. ==To unzip the file double click on the (.zip) file.== Once you do this you will see a folder with the same name as the zipped file. Open the folder and you will see it's contents. You will be looking for the .dat file. You will be importing the .dat file to Moodle later.
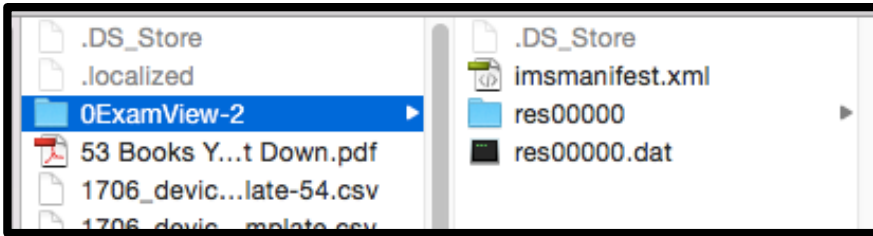

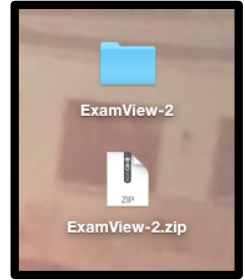

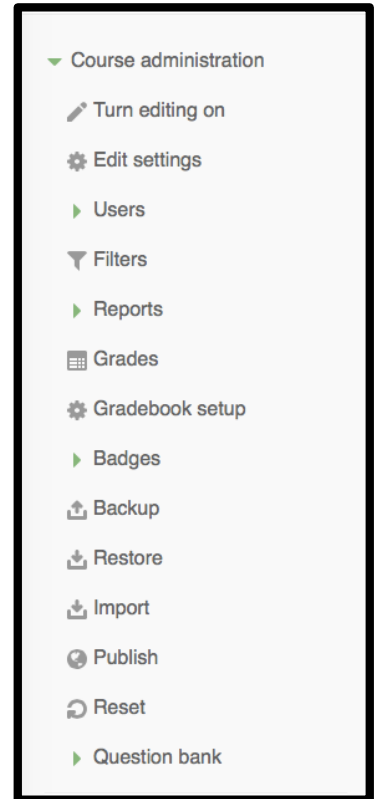

8. Launch a web browser and log into your Moodle course.

9. Once you have done that, look at the Administration Block for your course. You will see Question Bank
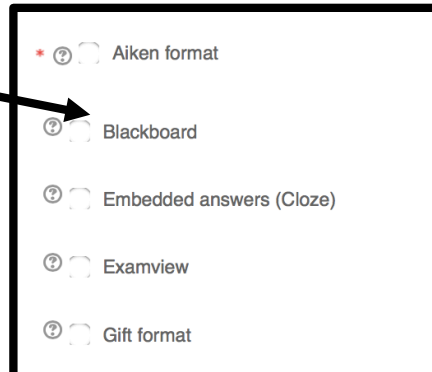

10. Open Question Bank by clicking drop button

11. If you are creating your first quiz in Moodle you may want to create a new category before importing.

12. Click Import

13. Select the Blackboard radio button
